

ALTFIELD

SUSTAINABLE DEVELOPMENT POLICY

Altfeld Ltd is committed to addressing the challenges of sustainable development and operating as a responsible corporate business. We will strive to achieve sustainability by integrating and balancing our economic, social and environmental responsibilities within all our activities.

Altfeld Ltd will develop and operate efficient business processes that are holistic, encompassing economic, social, and environmental requirements, and that are an integral part of the decision-making process.

Altfeld Ltd will implement tools and techniques to enable us to assess our sustainability impacts, to ensure performance improvement, and periodically we will report on our performance. Fundamental to our operation is the commitment to continual improvement, and to meet or exceed legal and regulatory requirements in all our activities.

Economic

- Deliver financial growth with a focus on long term sustainability, recognising our responsibilities to our stakeholders. These include customers, employees, regulators, investors, suppliers, the community, and the environment as well as neighbouring communities.
- Account for the true impact of our activities for better informed decision making.

Social

- Recognise and meet our corporate responsibilities to our stakeholders in our business, including customers, employees, regulators, investors, suppliers, the community and the environment as well as neighbouring communities
- Understand our contribution to society in the broader context of "sustainable mobility" to support our long-term planning.

Environment

- Improve environmental performance throughout the business by reducing and preventing pollution, conserving resources, managing materials of concern responsibly, minimising wastes, and implementing effective and efficient processes.

Optimise the potential for the use of alternative fuels, renewable energy, and recycled and sustainable materials.
